Le cassettiere e i mobili di servizio sono realizzati in conglomerato ligneo melaminico, densità 620 kg/mc a basso contenuto di formaldeide E1 e II^ classe di reazione al fuoco. I contenitori sono realizzati in diverse altezze e sono affiancabili tra loro. Sono tutti dotati di piedino livellatore diametro 50 H17 mm di colore nero. La struttura è realizzata in conglomerato ligneo melaminico da mm 18. I fianchi presentano al loro interno una foratura passo 32 mm per il fissaggio delle attrezzature interne e delle cerniere alle ante. Le ante legno sono realizzate in conglomerato ligneo melaminico da 18 mm, bordate nei lati verticali con bordo in ABS da 1 mm e nei lati orizzontali con bordo in ABS da mm 0,8. Le cerniere sono in metallo con trattamento anticorrosione, di facile regolazione, con apertura a 90°. Le maniglie sono in ABS colore alluminio passo 96 mm, le serrature sono cilindriche di tipo Yale, con cilindro estraibile con impugnatura della chiave snodabile. Le ante in vetro con telaio alluminio sono realizzate con vetro retroverniciato di sicurezza 4 mm di spessore, dotate di cornice perimetrale in estruso di alluminio anodizzato di spessore 20 mm. La maniglia è inserita all'interno del vetro di sicurezza. La serratura non è prevista. I ripiani interni sono in melaminico, spessore 25 mm dello stesso colore delle strutture e sono mobili a piacimento. Il top è realizzato in melaminico da 18 mm di spessore. La configurazione standard degli armadi prevede l'utilizzo di una schiena a muro realizzata con pannello spessore 18 mm.
